

## INTERNATIONAL UNION AGAINST THE VENEREAL DISEASES AND THE TREPONEMATOSES

*General Assembly, 1967*

The next General Assembly of the International Union against the Venereal Diseases and the Treponematoses will be held in Munich from August 6 to 9, 1967, immediately after the International Congress of Dermatology. The subjects chosen for discussion include:

- (1) Social and Educational Problems of VD among Young People:
- (a) Ecology of promiscuity among young people; the psychological and social characteristics of young patients attending VD clinics;
- (b) Responsibility for health education in relation to VD; the duties of parents, educational authorities, industrial medical services, and venereologists;
- (c) Methodology of socio-medical research relating to VD.
- (2) Final report on the study of the teaching of venereology in medical schools.

There will be a further subject to be chosen by the German Society against the Venereal Diseases.

Members of the Medical Society for the Study of Venereal Diseases and others are reminded that, in addition to representation of member organizations, individuals may become members of the Union and participate in the discussions. There is a further category of associate membership for those who are not medically qualified but who are concerned with the problem and wish to participate.

Those who are interested in obtaining further information about the General Assembly or about individual membership are asked to write to

Prof. G. A. Canaperia, Secretary General, International Union against the Venereal Diseases and the Treponematoses, Via Salaria 237, Rome, Italy.
